

LARGE FLUX

Can be washed repeatedly

Filter accuracy 0.1~0.01 micron

Transparent barrel, dirt is clearly visible

No electricity

No waste water

No protective liquid needed

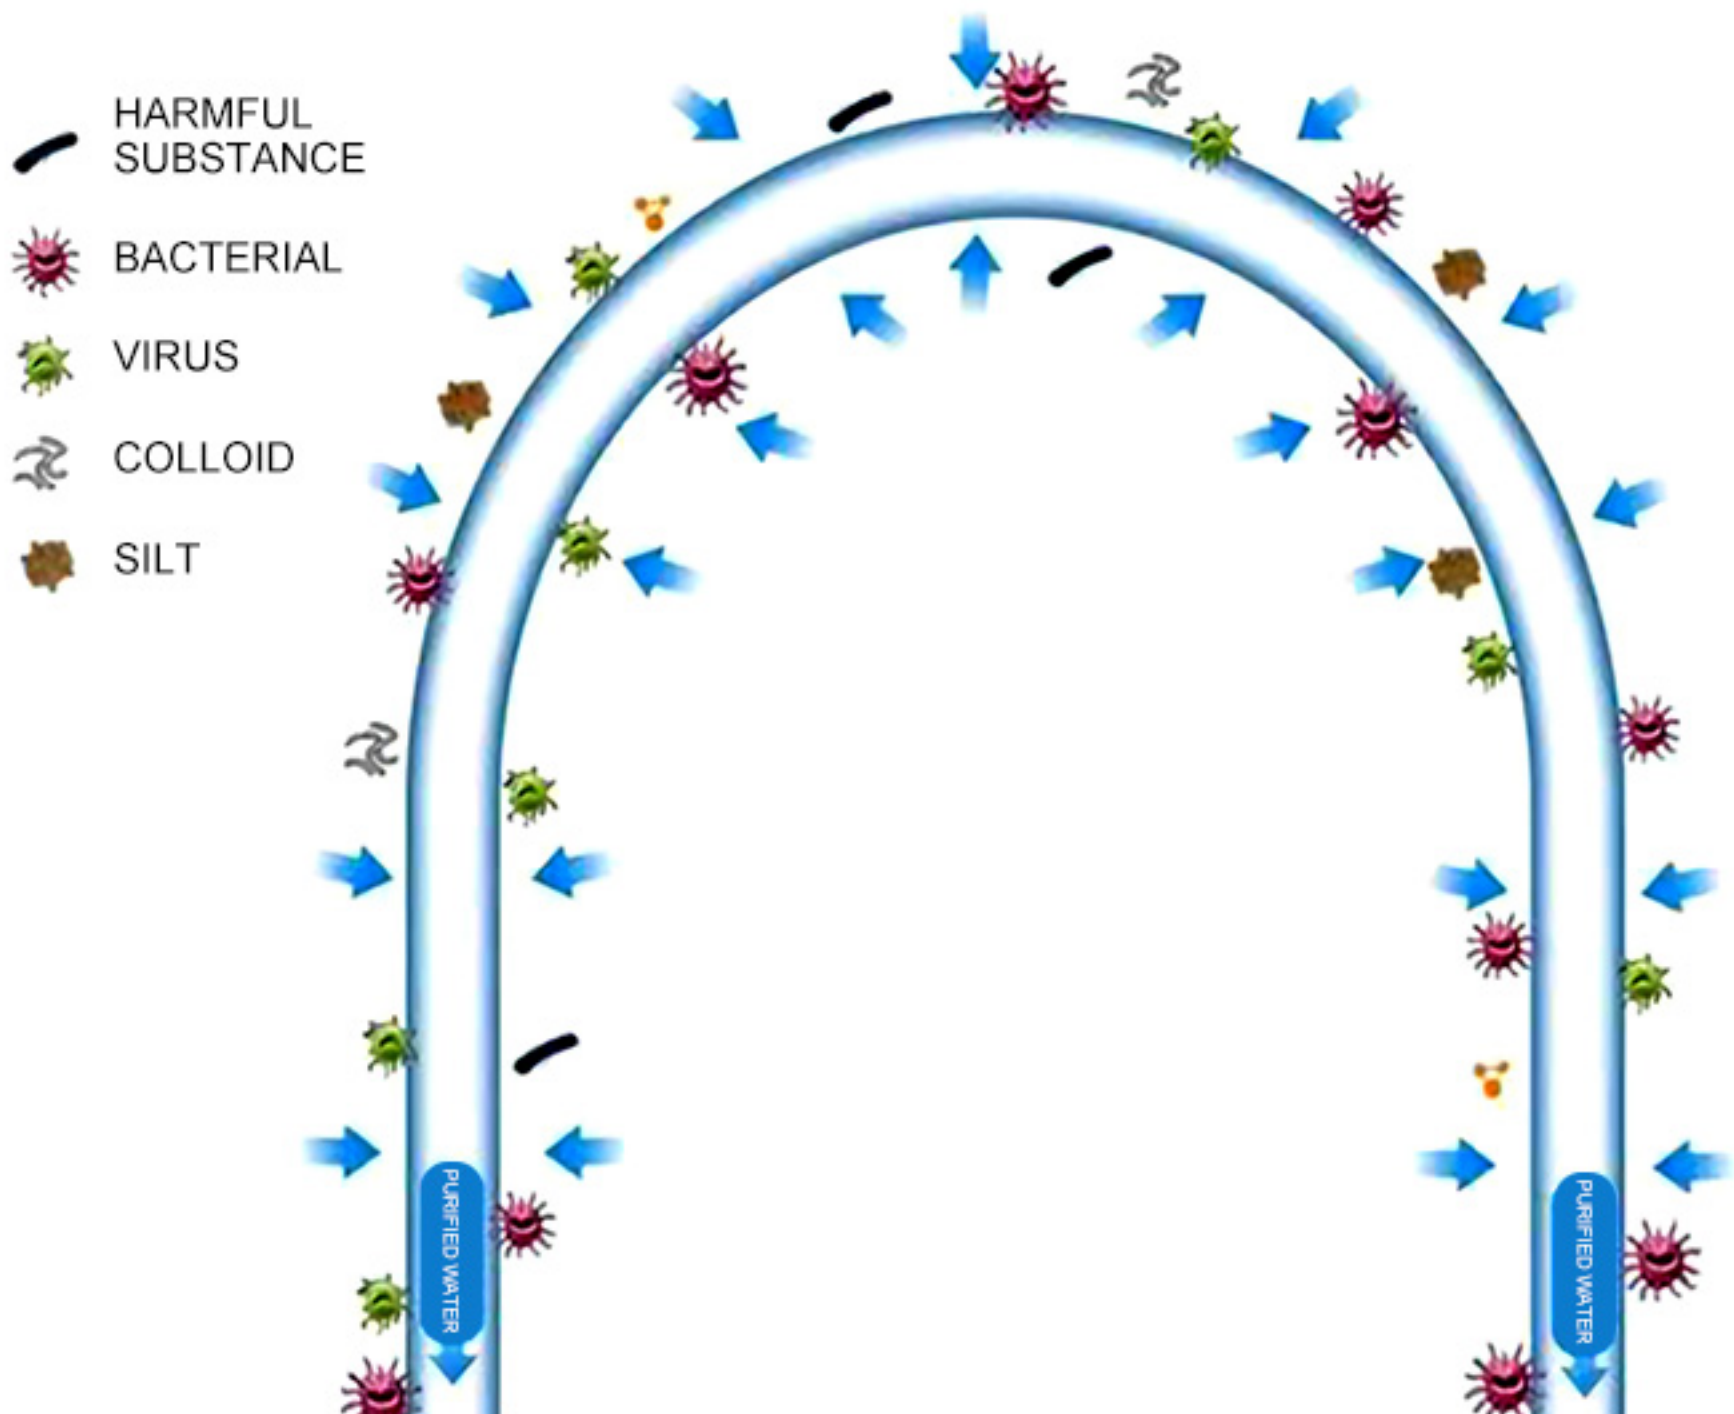

High filtration accuracy

EXTERNAL PRESSURE FILTERING PRINCIPLE

SEDIMENT, MICROORGANISMS, PARTICULATE MATTER, AND BACTERIA
ARE INTERCEPTED ON THE SURFACE OF THE MEMBRANE FILAMENT
SCIENTIFICALLY SOLVE THE CLOGGING OF THE FILTER ELEMENT
CAUSED BY EXCESSIVE IMPURITIES

APPLICABLE WATER QUALITY RANGE

Yellow mud water purification

Rural water purification

Groundwater purification

River water purification

PRODUCT PARAMETERS

Flux(L/H) : 1200

Membrane Material : DVDF

Filtration Accuracy : 0.1-0.01Micron

Working Water Pressure : 0.1-0.4Mpa

Applicable Water Temperature : 4-40°C

Product Size : 20*4.5inch
