SOFTENING RESIN

FOOD GRADE MATERIAL

SOFTENED RESIN FILTER

The softening resin adopts imported softening resin. Through the interaction of the cations in the resin and the carbonate ions in the water, the calcium and magnesium ions in the water are converted to reduce the hardness of the water and reduce the scale.

PRODUCT PARAMETERS

Product Name : Softened resin filter

Product Size : 113.5*251.5*mm

Product Material : Cation exchange resin

Maximum Temperature : 4-45C°

Applicable Water Quality : Municipal tap water

Pure Water Flow : 900L/H
