

PRE-FILTER

Guarding the first level of whole house water purification

P5

High precision filtering

Stainless steel strainer

Filter element replacement free

Protect washing appliances

Environmentally friendly copper material

VORTEX QUICK CLEAN BACKWASHING

Efficient and comprehensive filtration of impurities

316L stainless steel filter with
high efficiency

4 TONS OF LARGE FLOW

The water flows quickly
it can meet the water demand of the family
and the clean water does not have to wait

Kitchen water

Bathing water

face wash water

Laundry water

Drinking Water

It's easy to meet the needs of family for daily use

POLYMER EXPLOSION-PROOF FILTER BOTTLE

Strictly select the material of the water-related parts and adopt the imported material of milk bottle

More than **200000**
waterproof hammers

60kg explosion-proof

No bisphenol A

INTELLIGENT TOUCH SCREEN CONTROL

Intelligent touch screen control, automatic sewage discharge system, can set discharge schedule, realize automatic babysitter watch type sewage discharge mode, automatic fault alarm, modular maintenance after-sales worry-free.

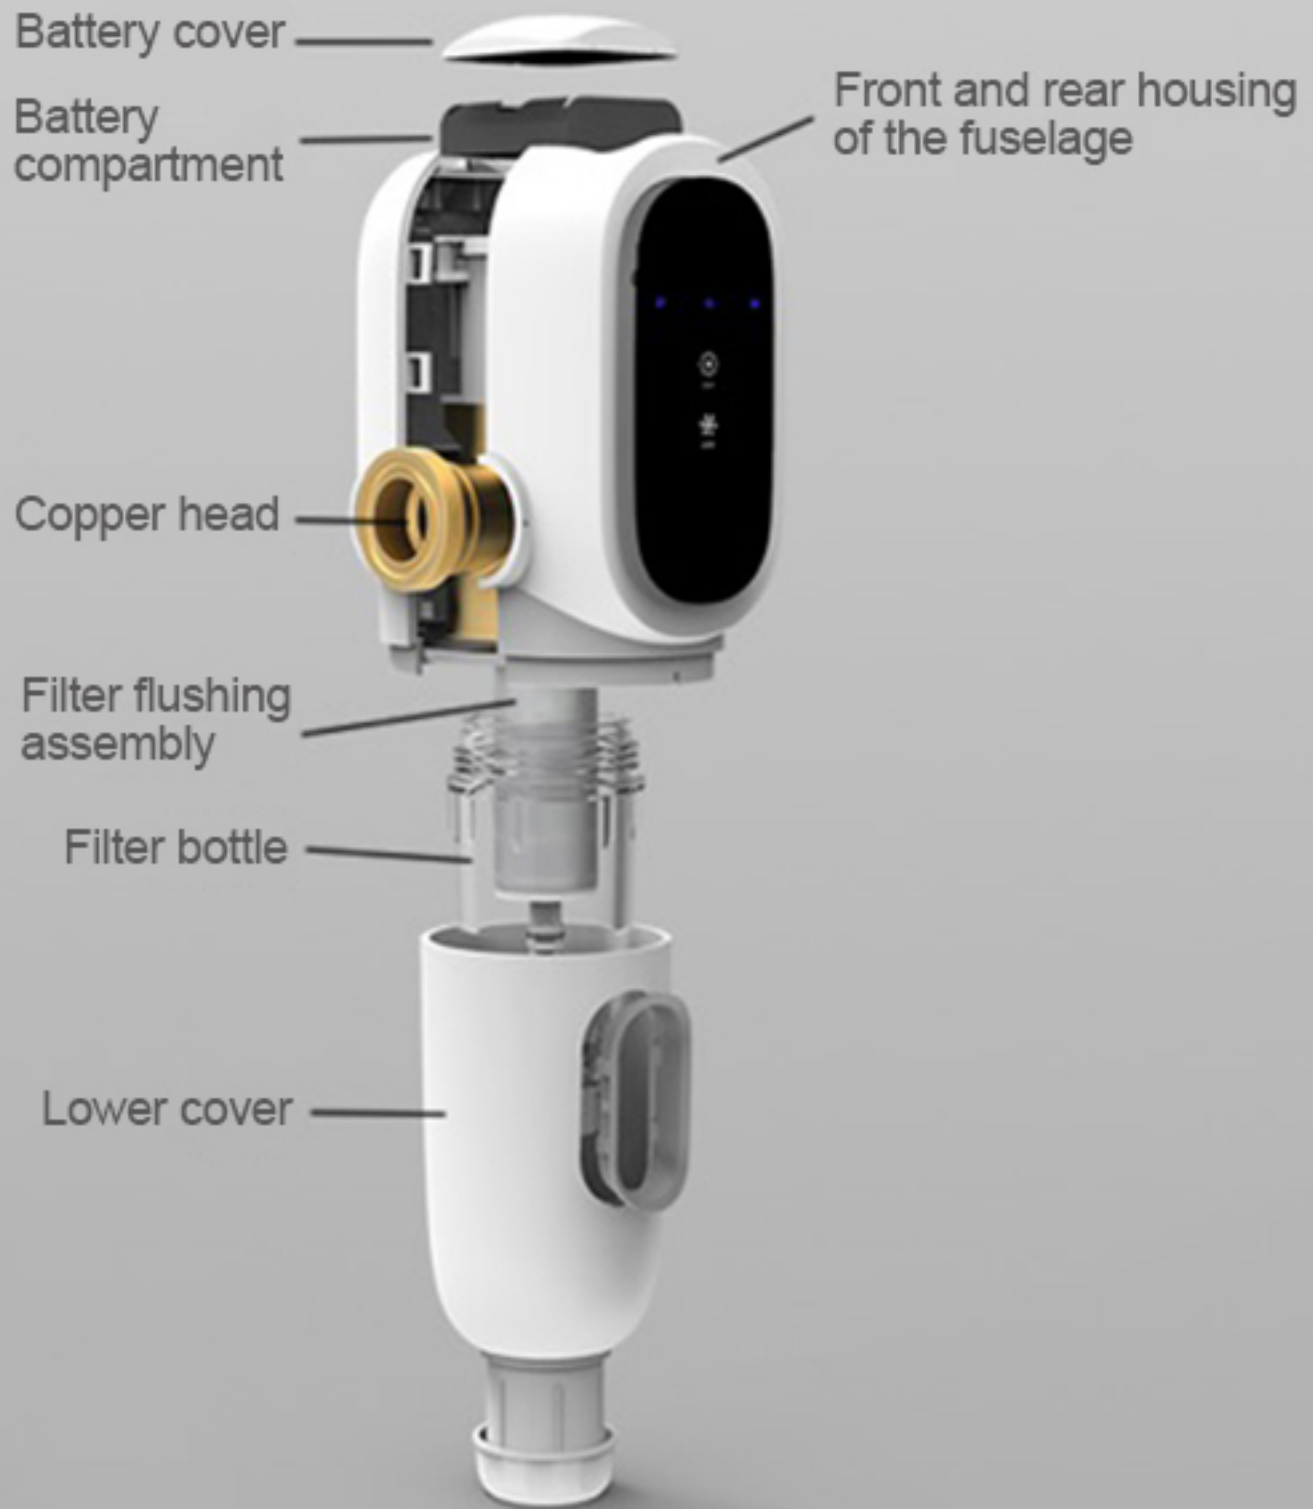

FULLY AUTOMATIC RAPID SEWAGE DISCHARGE

Easy to operate

EXQUISITE HIGH-END APPEARANCE

Sewerage interface

3-point sewage discharge interface
fast sewage discharge

Internal power supply

It is powered by 3 No. 5 batteries
which is easy to use

Precision process

The fuselage is beautiful ,dare enough
to splash the dust

PRODUCT PARAMETERS

Product model: P5

Filtering accuracy: 40 μ m

Effluent flow: 4T/h

Product size: 120*95*310mm

Work pressure: 0.15~1MPa

Connector size: 3/4", 1/2", 1"

Applicable temperature: 5°C-45 °C

Applicable water quality: municipal tap water
