

SOFTENED RESIN FILTER

The softening resin adopts imported softening resin. Through the interaction of the cations in the resin and the carbonate ions in the water, the calcium and magnesium ions in the water are converted to reduce the hardness of the water and reduce the scale.

20 INCH SOFTENING RESIN FILTER ELEMENT

- Softened water
- Remove scale
- Minerals
- floating object

Easy to use

SOFTENING RESIN

FOOD GRADE MATERIAL

PRODUCT PARAMETERS

Product Name : Softened resin filter

Product Size : 70*506mm

Product Material : Cation exchange resin

Maximum Temperature : 4-45C°

Applicable Water Quality : Municipal tap water

Filter Element Material : Cation exchange resin
